

AES Fee Adjustment Effective

January 1, 2022

AES greatly appreciates your loyalty over the years. We hope this adjustment in our fee structure is agreeable.

All projects entered into AES before January 1, 2022, will be billed at our current rate.

In the event you have already disclosed our fee on a pending project that will close after January 1, 2022, AES will, of course, honor the cost already presented to your client. Please let us know, and we will make the appropriate adjustments.

AES understands that all projects are not the same. If you feel your project may require additional services, please contact AES to set agreeable terms.
